Shannon:

Please find my responses below to Forestry & Horticulture comments dated April 22, 2021:

- The retaining wall in the vicinity of Trees #1-15 is required to ensure the overland flow route is self-contained within the property, and minimum zoning setbacks are satisfied as per City of Hamilton Standards. For these reasons, Trees #1-7, 9, 10, 12, and 13 cannot be retained.
- Ownership of Trees #1-15 has been revised to be shown as Public in the Existing Vegetation Identification Table
- Trees #12 and 13 have been accurately plotted on plan as Public.
- Tree #166 (14cm Hawthorn) has been added to plan between Tree #5 and 6, and its data have been added to the Existing Vegetation Identification Table.
- Streetscape plan notes have been revised as requested.

If you have any questions or comments feel free to contact me.

Regards,
